

ARMCHAIR

# KNUT 120

Knut is a series of chairs featuring four models: two without armrests and two with armrests. The chairs are available with either a wooden seat or an upholstered seat.

Knut is a sleek chair with a wide range of applications. It has been designed to work in many different environments without compromising on function or comfort. The chair is stackable and can be linked, making it easy to store and handle.

Knut is well suited for environments such as cafeterias, schools, libraries, and auditoriums, where flexibility, ease of arrangement, and linking functionality are important.

The chair is made of FSC®-certified birch. It is offered as standard in clear lacquer, white, or black, and is also available in any custom color on request.

Design: Peter Andersson

## DIMENSIONS

| | |
|---|---|
| Height | 81 cm |
| Width | 55 cm |
| Depth | 52 cm |
| Seat height | 45 cm |
| Seat depth | 38 cm |
| Arm guide height | 66 cm |

Any color available as an option on this product.

## FABRIC

- Removable and washable fabrics are washed according to washing instructions. These are sewn with a shrink seam, wash before use for optimal fit.
- Vacuuming with a soft nozzle is often sufficient for cleaning.
- Stains should always be removed as quickly as possible. In most cases, wiping with a damp cloth is sufficient, for more difficult stains, a pH-neutral detergent or a foam detergent for professional use can be used.
- Always use white cloths and avoid wetting a woolen fabric to a greater extent, as this risks remaining stains.
- If necessary, a foam detergent can also be used for a more thorough cleaning if this is allowed in the fabric's specification.

## WOOD

Wood is a living material whose grain from the very beginning has a natural variation in pattern, color tone and luster. The wood is affected by, among other things, the season, heat and humidity. That wood is a living material means:

- Screws need to be re-tightened regularly, at least once a year.
- Solid table tops can naturally warp by up to 0.5%.
- Light from the sun and lighting can cause permanent color and light differences in the surface, so allow the entire wooden surface to be exposed to the same amount of light.

Out of concern for the environment, we paint a large part of our range with water-based surface treatments. This means:

- Spills of coffee and other liquids need to be wiped up immediately.
- For cleaning, hand washing detergent or pH-neutral detergents and lukewarm water are recommended. Wipe off with clean water and wipe dry. Do not use cleaning agents that are alkaline, aggressive, contain abrasives or solvents.
- For disinfection, non-alcohol-based agents are recommended, e.g. Virkon or DAX Alco Free. Alcohol-based agents must not be used.
