TWO-SEATER SOFA

FREJA 336-1

Freja is a versatile furniture family with armchairs, sofas and chairs with different functions and sizes with tactile materials that create a varied but harmonious and uniform expression.

Freja 2-seater sofa has a simple but stylish frame in birch wood. Now updated with the practical gap between seat and back. It has visible horizontal ribs in the back. Seat and back cushion are available with removable upholstery so it can easily be kept hygienic. You can get fabric-covered armrests as an option. The furniture fits well into waiting rooms and lounges.

Möbelfamiljen är tillverkad i FSC®-Mix och är märkt med Möbelfakta. Freja är ritad av NC Design Studio.

DIMENSIONS

Height	84 cm
Width	121 cm
Depth	73 cm
Seat height	47 cm
Seat depth	47 cm
Höjd armledare	62 cm

Any color available as an option on this product.

METAL

- For regular cleaning, use a lightly moistened cloth with a mild detergent without solvents or abrasives.
- For heavily soiled surfaces, a cloth moistened with alcohol can be used.
- Disinfection can be done with alcohol if the surface is dried afterwards.

FABRIC

- Removable and washable fabrics are washed according to washing instructions. These are sewn with a shrink seam, wash before use for optimal fit.
- Vacuuming with a soft nozzle is often sufficient for cleaning.
- Stains should always be removed as quickly as possible. In most cases, wiping with a damp cloth is sufficient, for more difficult stains, a pH-neutral detergent or a foam detergent for professional use can be used.
- Always use white cloths and avoid wetting a woolen fabric to a greater extent, as this risks remaining stains.
- If necessary, a foam detergent can also be used for a more thorough cleaning if this is allowed in the fabric's specification.

WOOD

Wood is a living material whose grain from the very beginning has a natural variation in pattern, color tone and luster. The wood is affected by, among other things, the season, heat and humidity. That wood is a living material means:

- Screws need to be re-tightened regularly, at least once a year.
- Solid table tops can naturally warp by up to 0.5%.
- Light from the sun and lighting can cause permanent color and light differences in the surface, so allow the entire wooden surface to be exposed to the same amount of light.

Out of concern for the environment, we paint a large part of our range with water-based surface treatments. This means:

- Spills of coffee and other liquids need to be wiped up immediately.
- For cleaning, hand washing detergent or pH-neutral detergents and lukewarm water are recommended. Wipe off with clean water and wipe dry. Do not use cleaning agents that are alkaline, aggressive, contain abrasives or solvents.
- For disinfection, non-alcohol-based agents are recommended, e.g. Virkon or DAX Alco Free. Alcohol-based agents must not be used.
