

MODULAR SOFA

BE A PART OF 856

Be a Part is a flexible modular sofa that can be configured to meet a variety of needs. It is designed to naturally accommodate, for example, wheelchair users, strollers, and luggage, while also allowing for social distancing when necessary. The sofa combines wood and textile to create tactile experiences, with variations in frame color and fabric providing contrast, harmony, and a rich visual experience. For optimal hygiene, Be a Part features removable and washable upholstery, as well as a gap between the seat and back that prevents dirt and bacteria from building up.

Be a Part is well suited for healthcare and care environments, such as waiting rooms, entrances, and corridors, but it also works well in other public spaces, including schools and libraries.

Be a part of is made of FSC®-certified birch and is labeled with Möbelfakta. It is offered as standard in clear lacquer, white, or black, and is also available in any custom color on request.

Design: Ella Westlund

DIMENSIONS

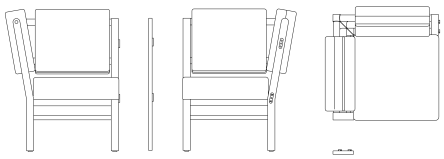

Height	86 cm
Width	71 cm
Depth	72 cm
Seat height	45 cm
Seat depth	50 cm

Any color available as an option on this product.

FABRIC

- Removable and washable fabrics are washed according to washing instructions. These are sewn with a shrink seam, wash before use for optimal fit.
- Vacuuming with a soft nozzle is often sufficient for cleaning.
- Stains should always be removed as quickly as possible. In most cases, wiping with a damp cloth is sufficient, for more difficult stains, a pH-neutral detergent or a foam detergent for professional use can be used.
- Always use white cloths and avoid wetting a woolen fabric to a greater extent, as this risks remaining stains.
- If necessary, a foam detergent can also be used for a more thorough cleaning if this is allowed in the fabric's specification.

WOOD

Wood is a living material whose grain from the very beginning has a natural variation in pattern, color tone and luster. The wood is affected by, among other things, the season, heat and humidity. That wood is a living material means:

- Screws need to be re-tightened regularly, at least once a year.
- Solid table tops can naturally warp by up to 0.5%.
- Light from the sun and lighting can cause permanent color and light differences in the surface, so allow the entire wooden surface to be exposed to the same amount of light.

Out of concern for the environment, we paint a large part of our range with water-based surface treatments. This means:

- Spills of coffee and other liquids need to be wiped up immediately.
- For cleaning, hand washing detergent or pH-neutral detergents and lukewarm water are recommended. Wipe off with clean water and wipe dry. Do not use cleaning agents that are alkaline, aggressive, contain abrasives or solvents.
- For disinfection, non-alcohol-based agents are recommended, e.g. Virkon or DAX Alco Free. Alcohol-based agents must not be used.
