MODULAR SOFA

BE A PART OF 856

Be a part of is a flexible modular sofa that can be built based on different needs and which in its design naturally includes, for example, a wheelchair user, stroller, luggage or creates social distance when needed.

Be a part of is created to be able to offer different tactile experiences in wood and textiles by combining colors in the frame and different fabric choices for the right contrast, harmony and color experience. Another tactile detail is the milled profile in the front edge of the armrest, which creates a sense of material and security that also can provide positive distraction.

For best hygiene, Be a part of has removable and washable fabric in the seat and back, as well a gap between the seat and back to prevent dirt and bacteria from getting stuck.

The furniture family Be a part of is made of FSC-certified birch and is labeled with Möbelfakta.

Be a part of är ritad av Ella Westlund.

ADDED VALUE

- Inclusive modular sofa that can be built based on different needs
- Given space for the wheelchair carrier, stroller, luggage etc
- Creates opportunities for social distancing in public settings
- Offers many tactile details
- Gap between seat and back for best hygiene
- Easy to get to under the sofa, which facilitates cleaning
- Removable fabric
- Any color
- Tested for public use and meets the requirements for durability & safety, set forth in the following standard, EN 16139

ACCESSORIES

- Frame in birch
- Frame in any color
- Rubber fabric/hospital fabric

REUSE

- Solid wood
- Removable upholstery
- Replaceable padding

FABRIC

- Removable and washable fabrics are washed according to washing instructions. These are sewn with a shrink seam, wash before use for optimal fit.
- Vacuuming with a soft nozzle is often sufficient for cleaning.
- Stains should always be removed as quickly as possible. In most cases, wiping with a damp cloth is sufficient, for more difficult stains, a pH-neutral detergent or a foam detergent for professional use can be used.
- Always use white cloths and avoid wetting a woolen fabric to a greater extent, as this risks remaining stains.
- If necessary, a foam detergent can also be used for a more thorough cleaning if this is allowed in the fabric's specification.

WOOD

Wood is a living material whose grain from the very beginning has a natural variation in pattern, color tone and luster. The wood is affected by, among other things, the season, heat and humidity. That wood is a living material means:

- Screws need to be re-tightened regularly, at least once a year.
- Solid table tops can naturally warp by up to 0.5%.
- Light from the sun and lighting can cause permanent color and light differences in the surface, so allow the entire wooden surface to be exposed to the same amount of light.

Out of concern for the environment, we paint a large part of our range with water-based surface treatments. This means:

- Spills of coffee and other liquids need to be wiped up immediately.
- For cleaning, hand washing detergent or pH-neutral detergents and lukewarm water are recommended. Wipe off with clean water and wipe dry. Do not use cleaning agents that are alkaline, aggressive, contain abrasives or solvents.
- For disinfection, non-alcohol-based agents are recommended, e.g. Virkon or DAX Alco Free. Alcohol-based agents must not be used.
