

## TWO-SEATER SOFA

# DAHLIA 812

Dahlia is a fully upholstered, soft, and comfortable furniture collection featuring sofas and armchairs, designed to create an inviting atmosphere in the public spaces of the future. The series is crafted with high standards for sustainability and reuse, allowing its components to be replaced or repaired as needed, and its inclusive design is intended to stand the test of time. For optimal hygiene, Dahlia has removable and washable upholstery, as well as a gap between the seat, back, and frame to prevent dirt and bacteria from building up.

Dahlia is well suited for healthcare and care environments, where it creates a homely feel, as well as in offices and lounge areas.

The sofa is made of FSC®-certified birch or oak and is certified with Möbelfakta. Choose between a wooden or metal frame. The wooden frame is available as standard in clear lacquer, white or black, with custom colours available on request. The metal frame is available as standard in black.

Design: NC Design Studio

## DIMENSIONS

|                  |        |
|------------------|--------|
| Height           | 85 cm  |
| Width            | 155 cm |
| Depth            | 82 cm  |
| Seat height      | 47 cm  |
| Seat depth       | 50 cm  |
| Arm guide height | 75 cm  |

Any color available as an option on this product.

## CERTIFICATIONS

## ADDED VALUE

- Creates a sense of home in public environments
- Alternative day bed
- Inclusive and embracing
- Easy to get to under the sofa, which facilitates cleaning
- Gap between seat, back and frame for best hygiene
- Removable fabric
- Tested for public use and meets the requirements for durability & safety, set forth in the following standard, EN 16139

## ACCESSORIES

- Wooden frame in FSC®-certified birch or oak
- Wooden frame in clear lacquer, white or black (standard)
- Wooden frame in any color (special)
- Metal frame in black (standard)
- Choice of fabric
- Rubber fabric/hospital fabric on seat

## REUSE

- Solid wood
- Removable upholstery
- Replaceable padding

## FABRIC

- Removable and washable fabrics are washed according to washing instructions. These are sewn with a shrink seam, wash before use for optimal fit.
- Vacuuming with a soft nozzle is often sufficient for cleaning.
- Stains should always be removed as quickly as possible. In most cases, wiping with a damp cloth is sufficient, for more difficult stains, a pH-neutral detergent or a foam detergent for professional use can be used.
- Always use white cloths and avoid wetting a woolen fabric to a greater extent, as this risks remaining stains.
- If necessary, a foam detergent can also be used for a more thorough cleaning if this is allowed in the fabric's specification.

## WOOD

Wood is a living material whose grain from the very beginning has a natural variation in pattern, color tone and luster. The wood is affected by, among other things, the season, heat and humidity. That wood is a living material means:

- Screws need to be re-tightened regularly, at least once a year.
- Solid table tops can naturally warp by up to 0.5%.
- Light from the sun and lighting can cause permanent color and light differences in the surface, so allow the entire wooden surface to be exposed to the same amount of light.

Out of concern for the environment, we paint a large part of our range with water-based surface treatments. This means:

- Spills of coffee and other liquids need to be wiped up immediately.
- For cleaning, hand washing detergent or pH-neutral detergents and lukewarm water are recommended. Wipe off with clean water and wipe dry. Do not use cleaning agents that are alkaline, aggressive, contain abrasives or solvents.
- For disinfection, non-alcohol-based agents are recommended, e.g. Virkon or DAX Alco Free. Alcohol-based agents must not be used.
