THREE-SEATER SOFA

HUMLAN 377

Humlan is a furniture collection featuring sofas, armchairs, chairs, and tables with soft, rounded forms. It has been designed to create an inclusive and welcoming environment that breaks up the rigid geometry of a room and gives a softer impression. For optimal hygiene, the furniture features removable and washable seat cover to make cleaning easier. A gap between the seat and backrest reduces the risk of dirt and bacteria build-up.

Humlan three-seater sofa features three flexible back cushion with a removable cover, providing optimal support and seating comfort. It is well suited for public environments where accessibility and comfort are important, such as care homes, entrances and lounges.

The sofa is made of FSC®-certified birch or oak and is certified with Möbelfakta. It is offered as standard in clear lacquer, white, or black, and is also available in any custom color on request.

Design: Eva Schildt

DIMENSIONS

Height	82 cm
Width	205 cm
Depth	64 cm
Seat height	47 cm
Seat depth	47 cm

Any color available as an option on this product.

FABRIC

- Removable and washable fabrics are washed according to washing instructions. These are sewn with a shrink seam, wash before use for optimal fit.
- Vacuuming with a soft nozzle is often sufficient for cleaning.
- Stains should always be removed as quickly as possible. In most cases, wiping with a damp cloth is sufficient, for more difficult stains, a pH-neutral detergent or a foam detergent for professional use can be used.
- Always use white cloths and avoid wetting a woolen fabric to a greater extent, as this risks remaining stains.
- If necessary, a foam detergent can also be used for a more thorough cleaning if this is allowed in the fabric's specification.

WOOD

Wood is a living material whose grain from the very beginning has a natural variation in pattern, color tone and luster. The wood is affected by, among other things, the season, heat and humidity. That wood is a living material means:

- Screws need to be re-tightened regularly, at least once a year.
- Solid table tops can naturally warp by up to 0.5%.
- Light from the sun and lighting can cause permanent color and light differences in the surface, so allow the entire wooden surface to be exposed to the same amount of light.

Out of concern for the environment, we paint a large part of our range with water-based surface treatments. This means:

- Spills of coffee and other liquids need to be wiped up immediately.
- For cleaning, hand washing detergent or pH-neutral detergents and lukewarm water are recommended. Wipe off with clean water and wipe dry. Do not use cleaning agents that are alkaline, aggressive, contain abrasives or solvents.
- For disinfection, non-alcohol-based agents are recommended, e.g. Virkon or DAX Alco Free. Alcohol-based agents must not be used.
