

## FOOTSTOOL

# KURBITS 328

Kurbits 328 is a comfortable footstool with cushion. The name Kurbits comes from the decorative painting of Dalarna - a landscape that the whole furniture family is inspired by. It has removable upholstery that fastens with press studs, making it easy to wash. The footstool is a natural complement to the Kurbits family's two stick chair armchairs.

Kurbits 328 går att få i klarlackad björk eller betsad i svart eller vitt som standard. Den kan även levereras i valfri kulör mot tillägg.

Kurbits tillverkas i björk och är märkt med FSC®-Mix. Stolen är ritad av Helene Tiedemann.

## DIMENSIONS

Height	43 cm
Width	63 cm
Depth	39 cm

Any color available as an option on this product.

## CERTIFICATIONS

## VIEWS

## ADDED VALUE

- Removable upholstery
- Any color
- Tested for public use and meets the requirements for durability & safety, set forth in the following standard, EN 16139

## ACCESSORIES

- Frame in birch
- Frame in any color

## REUSE

- Solid wood
- Removable upholstery
- Replaceable padding

## FABRIC

- Removable and washable fabrics are washed according to washing instructions. These are sewn with a shrink seam, wash before use for optimal fit.
- Vacuuming with a soft nozzle is often sufficient for cleaning.
- Stains should always be removed as quickly as possible. In most cases, wiping with a damp cloth is sufficient, for more difficult stains, a pH-neutral detergent or a foam detergent for professional use can be used.
- Always use white cloths and avoid wetting a woolen fabric to a greater extent, as this risks remaining stains.
- If necessary, a foam detergent can also be used for a more thorough cleaning if this is allowed in the fabric's specification.

## WOOD

Wood is a living material whose grain from the very beginning has a natural variation in pattern, color tone and luster. The wood is affected by, among other things, the season, heat and humidity. That wood is a living material means:

- Screws need to be re-tightened regularly, at least once a year.
- Solid table tops can naturally warp by up to 0.5%.
- Light from the sun and lighting can cause permanent color and light differences in the surface, so allow the entire wooden surface to be exposed to the same amount of light.

Out of concern for the environment, we paint a large part of our range with water-based surface treatments. This means:

- Spills of coffee and other liquids need to be wiped up immediately.
- For cleaning, hand washing detergent or pH-neutral detergents and lukewarm water are recommended. Wipe off with clean water and wipe dry. Do not use cleaning agents that are alkaline, aggressive, contain abrasives or solvents.
- For disinfection, non-alcohol-based agents are recommended, e.g. Virkon or DAX Alco Free. Alcohol-based agents must not be used.
