ARMCHAIR WITH HIGH BACK

RIB 571-1

RIB is a furniture collection featuring armchairs and sofas. The series has a functional and welcoming expression with a focus on comfort and accessibility. RIB armchair is available with both high and low backs, featuring a design and construction that convey stability and reliability, along with ergonomically shaped armrests for added support and ease of use. The armchair features a removable and washable upholstery for good hygiene. RIB 571-1 is tested for a user weight of up to 200 kg in accordance with Möbelfakta requirements.

RIB armchair is designed for comfortable social spaces and is well suited for healthcare and care environments.

The armchair is made of FSC®-certified birch and is certified with Möbelfakta. It is offered as standard in clear lacquer, white, or black, and is also available in any custom color on request.

Design: Kenneth Bergenblad

ADDED VALUE

- Comfortable and cozy
- Flexible and functional
- Removable upholstery
- Tested for public use and meets the requirements for durability & safety, set forth in the following standard, EN 16139
- Tested for 200kg

ACCESSORIES

- Frame in clear lacquer, white or black (standard)
- Frame in any color (special)
- Choice of fabric
- Rubber fabric/hospital fabric on seat

FABRIC

- Removable and washable fabrics are washed according to washing instructions. These are sewn with a shrink seam, wash before use for optimal fit.
- Vacuuming with a soft nozzle is often sufficient for cleaning.
- Stains should always be removed as quickly as possible. In most cases, wiping with a damp cloth is sufficient, for more difficult stains, a pH-neutral detergent or a foam detergent for professional use can be used.
- Always use white cloths and avoid wetting a woolen fabric to a greater extent, as this risks remaining stains.
- If necessary, a foam detergent can also be used for a more thorough cleaning if this is allowed in the fabric's specification.

WOOD

Wood is a living material whose grain from the very beginning has a natural variation in pattern, color tone and luster. The wood is affected by, among other things, the season, heat and humidity. That wood is a living material means:

- Screws need to be re-tightened regularly, at least once a year.
- Solid table tops can naturally warp by up to 0.5%.
- Light from the sun and lighting can cause permanent color and light differences in the surface, so allow the entire wooden surface to be exposed to the same amount of light.

Out of concern for the environment, we paint a large part of our range with water-based surface treatments. This means:

- Spills of coffee and other liquids need to be wiped up immediately.
- For cleaning, hand washing detergent or pH-neutral detergents and lukewarm water are recommended. Wipe off with clean water and wipe dry. Do not use cleaning agents that are alkaline, aggressive, contain abrasives or solvents.
- For disinfection, non-alcohol-based agents are recommended, e.g. Virkon or DAX Alco Free. Alcohol-based agents must not be used.
