

ARMCHAIR

THYRA 711

Thyra is a stylish sofa series in Scandinavian design, consisting of an armchair and sofas in two sizes. The collection is characterized by a harmonious combination of soft, rounded shapes, where the slim back is contrasted by the gently curved armrests and legs. The armrests extend behind the back, giving the furniture a distinct and sophisticated look. For optimal hygiene, Thyra features removable upholstery and a gap between the seat and back that helps prevent dirt and bacteria building up.

Thyra is well suited for public environments where accessibility and comfort are important, such as care and nursing homes, entrances, and waiting areas.

The armchair is made of FSC®-certified birch and oak and is certified with Möbelfakta. It is offered as standard in clear lacquer, white, or black, and is also available in any custom color on request.

Design: Linda Evensen

DIMENSIONS

Height	87 cm
Width	75 cm
Depth	68 cm
Seat height	46 cm
Seat depth	49 cm
Arm guide height	65 cm

Any color available as an option on this product.

FABRIC

- Removable and washable fabrics are washed according to washing instructions. These are sewn with a shrink seam, wash before use for optimal fit.
- Vacuuming with a soft nozzle is often sufficient for cleaning.
- Stains should always be removed as quickly as possible. In most cases, wiping with a damp cloth is sufficient, for more difficult stains, a pH-neutral detergent or a foam detergent for professional use can be used.
- Always use white cloths and avoid wetting a woolen fabric to a greater extent, as this risks remaining stains.
- If necessary, a foam detergent can also be used for a more thorough cleaning if this is allowed in the fabric's specification.

WOOD

Wood is a living material whose grain from the very beginning has a natural variation in pattern, color tone and luster. The wood is affected by, among other things, the season, heat and humidity. That wood is a living material means:

- Screws need to be re-tightened regularly, at least once a year.
- Solid table tops can naturally warp by up to 0.5%.
- Light from the sun and lighting can cause permanent color and light differences in the surface, so allow the entire wooden surface to be exposed to the same amount of light.

Out of concern for the environment, we paint a large part of our range with water-based surface treatments. This means:

- Spills of coffee and other liquids need to be wiped up immediately.
- For cleaning, hand washing detergent or pH-neutral detergents and lukewarm water are recommended. Wipe off with clean water and wipe dry. Do not use cleaning agents that are alkaline, aggressive, contain abrasives or solvents.
- For disinfection, non-alcohol-based agents are recommended, e.g. Virkon or DAX Alco Free. Alcohol-based agents must not be used.
