

WIDE ARMCHAIR

CHARLIE 1152 XL

Charlie is a chair developed based on identified needs for a healthcare chair. It is an inclusive chair with soft, rounded forms. The chair is stackable and hangable for easy cleaning and flexible furnishing, and features stable, tip-resistant full-length armrests. For optimal hygiene, Charlie has removable and washable upholstery. Charlie XL offers extra seat width and has been tested for a user weight of 200 kg in accordance with Möbelfakta requirements.

Charlie is well suited as a dining chair in healthcare and care environments.

The chair is made from FSC®-certified birch and oak and is certified with Möbelfakta. It is offered as standard in clear lacquer, white, or black, and is also available in any custom color on request.

Design: Peter Andersson

DIMENSIONS

Height	83 cm
Width	69 cm
Depth	62 cm
Seat height	48 cm

Any color available as an option on this product.

- Back cushion
- Sliding wheels
- Rubber fabric/hospital fabric
- +5 cm seat height

REUSE

- Solid wood
- Removable upholstery
- Replaceable padding

FABRIC

- Removable and washable fabrics are washed according to washing instructions. These are sewn with a shrink seam, wash before use for optimal fit.
- Vacuuming with a soft nozzle is often sufficient for cleaning.
- Stains should always be removed as quickly as possible. In most cases, wiping with a damp cloth is sufficient, for more difficult stains, a pH-neutral detergent or a foam detergent for professional use can be used.
- Always use white cloths and avoid wetting a woolen fabric to a greater extent, as this risks remaining stains.
- If necessary, a foam detergent can also be used for a more thorough cleaning if this is allowed in the fabric's specification.

WOOD

Wood is a living material whose grain from the very beginning has a natural variation in pattern, color tone and luster. The wood is affected by, among other things, the season, heat and humidity. That wood is a living material means:

- Screws need to be re-tightened regularly, at least once a year.
- Solid table tops can naturally warp by up to 0.5%.
- Light from the sun and lighting can cause permanent color and light differences in the surface, so allow the entire wooden surface to be exposed to the same amount of light.

Out of concern for the environment, we paint a large part of our range with water-based surface treatments. This means:

- Spills of coffee and other liquids need to be wiped up immediately.
- For cleaning, hand washing detergent or pH-neutral detergents and lukewarm water are recommended. Wipe off with clean water and wipe dry. Do not use cleaning agents that are alkaline, aggressive, contain abrasives or solvents.
- For disinfection, non-alcohol-based agents are recommended, e.g. Virkon or DAX Alco Free. Alcohol-based agents must not be used.
