

ARMCHAIR

GEPETTO 401

Gepetto is a chair with a playful design. It has been developed to combine form, function, and inclusion without compromising usability. The chair has earned the nickname “the SMS chair,” thanks to its curved armrests that give the elbows a comfortable angle for mobile phone use. Gepetto is available with either a wooden seat or an upholstered seat. It is stackable and can be hung up, making it easy to store and handle in different environments.

Stolen tillverkas i FSC®-certifierad björk. Den erbjuds som standard i klarlack, vit eller svart, men kan även beställas i valfri kulör som special.

Design: Peter Andersson

ADDED VALUE

- Generous and open
- Round frames to rest your elbows on
- Flexible sitting
- Stackable
- Hangable
- Tested for public use and meets the requirements for durability & safety, set forth in the following standard, EN 16139

WOOD

Wood is a living material whose grain from the very beginning has a natural variation in pattern, color tone and luster. The wood is affected by, among other things, the season, heat and humidity. That wood is a living material means:

- Screws need to be re-tightened regularly, at least once a year.
- Solid table tops can naturally warp by up to 0.5%.
- Light from the sun and lighting can cause permanent color and light differences in the surface, so allow the entire wooden surface to be exposed to the same amount of light.

Out of concern for the environment, we paint a large part of our range with water-based surface treatments. This means:

- Spills of coffee and other liquids need to be wiped up immediately.
- For cleaning, hand washing detergent or pH-neutral detergents and lukewarm water are recommended. Wipe off with clean water and wipe dry. Do not use cleaning agents that are alkaline, aggressive, contain abrasives or solvents.
- For disinfection, non-alcohol-based agents are recommended, e.g. Virkon or DAX Alco Free. Alcohol-based agents must not be used.
