

PEG-BACK BENCH

KURBITS 326

Kurbits is a furniture collection that includes a chair, bench, armchair, and coffee table, all in a classic design with generously spacious proportions. The name Kurbits comes from the decorative folk painting tradition of Dalarna – the region that inspired the entire furniture family.

Kurbits 326 is a peg-back bench made of birch, featuring a classic design with a modern touch. It is available with either a wooden seat or an optional seat cushion, and back cushions with removable fabric are also available as an option.

Kurbits is suitable for corridors, waiting rooms, and meeting rooms, where comfort and accessibility are important.

The peg-back bench is made of FSC®-certified birch and is labeled with Möbelfakta. It is offered as standard in clear lacquer, white, or black, and is also available in any custom color on request.

Design: Helene Tiedemann

DIMENSIONS

Height	87 cm
Width	135 cm
Depth	56 cm
Seat height	43 cm
Seat depth	44 cm
Arm guide height	66 cm

Any color available as an option on this product.

- Back cushion
- Rubber fabric/hospital fabric
- Available in wooden seat and with seat cushion

REUSE

- Solid wood
- Removable upholstery
- Replaceable padding

FABRIC

- Removable and washable fabrics are washed according to washing instructions. These are sewn with a shrink seam, wash before use for optimal fit.
- Vacuuming with a soft nozzle is often sufficient for cleaning.
- Stains should always be removed as quickly as possible. In most cases, wiping with a damp cloth is sufficient, for more difficult stains, a pH-neutral detergent or a foam detergent for professional use can be used.
- Always use white cloths and avoid wetting a woolen fabric to a greater extent, as this risks remaining stains.
- If necessary, a foam detergent can also be used for a more thorough cleaning if this is allowed in the fabric's specification.

WOOD

Wood is a living material whose grain from the very beginning has a natural variation in pattern, color tone and luster. The wood is affected by, among other things, the season, heat and humidity. That wood is a living material means:

- Screws need to be re-tightened regularly, at least once a year.
- Solid table tops can naturally warp by up to 0.5%.
- Light from the sun and lighting can cause permanent color and light differences in the surface, so allow the entire wooden surface to be exposed to the same amount of light.

Out of concern for the environment, we paint a large part of our range with water-based surface treatments. This means:

- Spills of coffee and other liquids need to be wiped up immediately.
- For cleaning, hand washing detergent or pH-neutral detergents and lukewarm water are recommended. Wipe off with clean water and wipe dry. Do not use cleaning agents that are alkaline, aggressive, contain abrasives or solvents.
- For disinfection, non-alcohol-based agents are recommended, e.g. Virkon or DAX Alco Free. Alcohol-based agents must not be used.
