

CHAIR WITH SWING

TILT 070

Tilt 070 is a chair with a playful design, which allows the user to break the rule of not rocking on the chair. All thanks to an innovative solution where the back legs function as a rocking chair. In fact, Tilt 070 has won the coveted Furniture of the Year award at the Stockholm Furniture Fair, awarded by Sköna hem magazine. Since then, the chair has been recognized around the world for its unique design and function.

Tilt 070 is made of solid birch, which can be ordered clear lacquered or with black or white stain as standard.

Tilt är ritad av Peter Andersson.

DIMENSIONS

Height	77 cm
Width	32 cm
Depth	51 cm
Seat height	45 cm
Seat depth	36 cm

Any color available as an option on this product.

WOOD

Wood is a living material whose grain from the very beginning has a natural variation in pattern, color tone and luster. The wood is affected by, among other things, the season, heat and humidity. That wood is a living material means:

- Screws need to be re-tightened regularly, at least once a year.
- Solid table tops can naturally warp by up to 0.5%.
- Light from the sun and lighting can cause permanent color and light differences in the surface, so allow the entire wooden surface to be exposed to the same amount of light.

Out of concern for the environment, we paint a large part of our range with water-based surface treatments. This means:

- Spills of coffee and other liquids need to be wiped up immediately.
- For cleaning, hand washing detergent or pH-neutral detergents and lukewarm water are recommended. Wipe off with clean water and wipe dry. Do not use cleaning agents that are alkaline, aggressive, contain abrasives or solvents.
- For disinfection, non-alcohol-based agents are recommended, e.g. Virkon or DAX Alco Free. Alcohol-based agents must not be used.
