

RECLINER

DAHLIA 820

Dahlia recliner is designed to seamlessly combine comfort and functionality. With an adjustable backrest and built-in footrest, Dahlia Recliner can be tailored to provide the perfect support for both relaxation and recovery.

The innovative mechanism that helps you get out of the recliner makes it extra user-friendly and provides an extra support in every movement. The electric, rechargeable mechanism allows you to place the recliner wherever you want without worrying about a power outlet. It makes it easy to adjust the seat, backrest, and footrest for a customized seating experience. Dahlia Recliner is more than just a chair – it's a place for recovery and relaxation. The removable fabrics on the seat, backrest, and headrest make it simple to keep the recliner fresh and clean.

Dahlia är ritad av NC Design Studio.
