

FUNCTIONAL ARMCHAIR

FREJA 238

Freja is a versatile furniture collection featuring armchairs, sofas, and chairs in various sizes and functions, where tactile materials create a varied yet harmonious and cohesive expression.

Freja functional armchair in metal is designed for environments with high cleanliness requirements, featuring a back and seat shaped for high comfort and stability, along with stepless adjustability to enhance functionality and ease of use. For optimal hygiene, the armchair features removable and washable upholstery for easy cleaning, as well as a gap between the seat and back that helps prevent dirt and bacteria from building up. Freja 238 is tested for a user weight of up to 160 kg in accordance with Möbelfakta requirements.

Freja is well suited for public environments where accessibility and comfort are important, such as care and nursing homes.

The armchair is certified with Möbelfakta. It is available in white or dark gray.

Design: NC Design Studio

ADDED VALUE

- Developed for environments with special hygiene requirements
- High seating comfort and infinitely adjustable
- Gap between seat and back for best hygiene
- Removable upholstery
- Tested for public use and meets the requirements for durability & safety, set forth in the following standard, EN 16139

- Choice of fabric
- Rubber fabric/hospital fabric
- Adjustable neck pillow
- Fabric-covered armrests

REUSE

- Removable upholstery

LEATHER

If you take care of the leather in the right way, it will become more beautiful over the years.

- Leather is heat sensitive. Therefore, direct sunlight and close contact with heating elements should be avoided.
- Vacuum the furniture to remove loose dirt and dust.
- Wipe the leather with a slightly damp cloth and a mild soapy solution can be used for cleaning.
- Water-based leather care products extend the lifespan.

METAL

- For regular cleaning, use a lightly moistened cloth with a mild detergent without solvents or abrasives.
- For heavily soiled surfaces, a cloth moistened with alcohol can be used.
- Disinfection can be done with alcohol if the surface is dried afterwards.

FABRIC

- Removable and washable fabrics are washed according to washing instructions. These are sewn with a shrink seam, wash before use for optimal fit.
- Vacuuming with a soft nozzle is often sufficient for cleaning.
- Stains should always be removed as quickly as possible. In most cases, wiping with a damp cloth is sufficient, for more difficult stains, a pH-neutral detergent or a foam detergent for professional use can be used.
- Always use white cloths and avoid wetting a woolen fabric to a greater extent, as this risks remaining stains.
- If necessary, a foam detergent can also be used for a more thorough cleaning if this is allowed in the fabric's specification.
