

FOOTSTOOL

FREJA 248

Freja is a versatile furniture family with armchairs, sofas and chairs with different functions and sizes with tactile materials that create a varied but harmonious and uniform expression.

Freja 248 is a footstool with a metal frame. It is a natural complement to the Freja 238 functional armchair. Both pieces of furniture are designed for environments with high demands on cleanliness and disinfection. The seat of the stool has removable upholstery, which facilitates washing and reuse. It can be ordered with artificial leather that does not need to be re-dried for disinfection.

Freja är ritad av NC Design Studio.

DIMENSIONS

Height	45 cm
Width	52 cm
Depth	38 cm

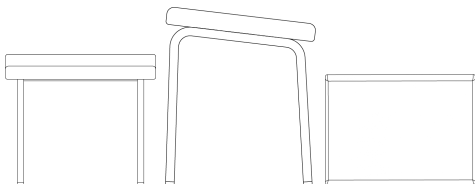

Any color available as an option on this product.

METAL

- For regular cleaning, use a lightly moistened cloth with a mild detergent without solvents or abrasives.
- For heavily soiled surfaces, a cloth moistened with alcohol can be used.
- Disinfection can be done with alcohol if the surface is dried afterwards.

PLASTIC

For wiping, use a mild detergent without solvents or abrasives. Regular dish soap works well.

FABRIC

- Removable and washable fabrics are washed according to washing instructions. These are sewn with a shrink seam, wash before use for optimal fit.
- Vacuuming with a soft nozzle is often sufficient for cleaning.
- Stains should always be removed as quickly as possible. In most cases, wiping with a damp cloth is sufficient, for more difficult stains, a pH-neutral detergent or a foam detergent for professional use can be used.
- Always use white cloths and avoid wetting a woolen fabric to a greater extent, as this risks remaining stains.
- If necessary, a foam detergent can also be used for a more thorough cleaning if this is allowed in the fabric's specification.
