BENCH

LINNEA 331

Being discontinued

The Linnea series consists of two benches in different heights, designed to encourage varied sitting positions.

Linnea with its innovative design, makes it possible to alternate between sitting with feet on the floor, resting on the footrest, or drawn up onto the bench, offering a relaxed and flexible seating position in public environments and suitable for corridors, waiting rooms or passageways.

The bench is made of solid FSC®-certified birch. It is offered as standard in clear lacquer, white, or black, and is also available in any custom colour on request.

Design: Stefan Forsberg

ADDED VALUE

- Bench in two heights
- Flexible sitting
- Tested for public environment for sustainability & safety according to the following standard, EN 16139

ACCESSORIES

- Frame in clear lacquer, white or black (standard)
- Frame in any color (special)
- Footrest cover in blasted stainless steel

METAL

- For regular cleaning, use a lightly moistened cloth with a mild detergent without solvents or abrasives.
- For heavily soiled surfaces, a cloth moistened with alcohol can be used.
- Disinfection can be done with alcohol if the surface is dried afterwards.

WOOD

Wood is a living material whose grain from the very beginning has a natural variation in pattern, color tone and luster. The wood is affected by, among other things, the season, heat and humidity. That wood is a living material means:

- Screws need to be re-tightened regularly, at least once a year.
- Solid table tops can naturally warp by up to 0.5%.
- Light from the sun and lighting can cause permanent color and light differences in the surface, so allow the entire wooden surface to be exposed to the same amount of light.

Out of concern for the environment, we paint a large part of our range with water-based surface treatments. This means:

- Spills of coffee and other liquids need to be wiped up immediately.
- For cleaning, hand washing detergent or pH-neutral detergents and lukewarm water are recommended. Wipe off with clean water and wipe dry. Do not use cleaning agents that are alkaline, aggressive, contain abrasives or solvents.
- For disinfection, non-alcohol-based agents are recommended, e.g. Virkon or DAX Alco Free. Alcohol-based agents must not be used.
