

STOOL

SPUTNIK 099

The Sputnik series includes six stools in three different heights, with the option of an upholstered or wooden seat.

The design is defined by a graphic and sculptural form, inspired by a stylized space rocket, a visual expression that gives the series a strong identity and playful character. Sputnik fits well in environments such as schools, libraries, waiting areas, and creative workspaces.

The stool is made of solid FSC®-certified birch and is certified with Möbelfakta. It is offered as standard in clear lacquer, white, or black, and is also available in any custom colour on request.

Design: Björn Dahlström

DIMENSIONS

Height	45 cm
Seat height	45 cm
Diameter	36 cm

Any color available as an option on this product.

WOOD

Wood is a living material whose grain from the very beginning has a natural variation in pattern, color tone and luster. The wood is affected by, among other things, the season, heat and humidity. That wood is a living material means:

- Screws need to be re-tightened regularly, at least once a year.
- Solid table tops can naturally warp by up to 0.5%.
- Light from the sun and lighting can cause permanent color and light differences in the surface, so allow the entire wooden surface to be exposed to the same amount of light.

Out of concern for the environment, we paint a large part of our range with water-based surface treatments. This means:

- Spills of coffee and other liquids need to be wiped up immediately.
- For cleaning, hand washing detergent or pH-neutral detergents and lukewarm water are recommended. Wipe off with clean water and wipe dry. Do not use cleaning agents that are alkaline, aggressive, contain abrasives or solvents.
- For disinfection, non-alcohol-based agents are recommended, e.g. Virkon or DAX Alco Free. Alcohol-based agents must not be used.
