

TABLE

GUSTAV 242

Gustav is a table series consisting of six different models, one of which is height-adjustable. The series is designed for flexible solutions in a variety of environments, with a focus on functionality, sustainability, and timeless design. It features a solid, high-quality tabletop that ensures long durability and strong resistance to daily use.

Gustav is well suited as a dining table in care and nursing homes.

The table is made of birch and is certified with Möbelfakta. It is offered as standard in clear lacquer, white, or black, and is also available in any custom color on request.

Design: Ingrid Backman

DIMENSIONS

Height	73 cm
Width	100 cm
Length	160 cm

Any color available as an option on this product.

VIEWS

ADDED VALUE

- En iläggsskiva på 50x100 cm ingår som standard
- Tested for public use and meets the requirements for durability & safety, set forth in the following standard, EN 15372

ACCESSORIES

- Frame in clear lacquer, white or black (standard)
- Frame in any color (special)
- Tabletop in birch, HPL laminate, or any color

REUSE

- Solid wood

LAMINATE

Laminates are very durable surfaces that fit well in public environments.

- Daily cleaning with a dry cloth.
- For more difficult stains, non-abrasive cleaners can be used.
- Hardly ingrained stains or discolorations can usually be removed by carefully using a cleaning agent with a mild abrasive action.
- Rings and streaks that form on the surface are most easily removed with window cleaner.
- Do not use scouring pads or steel wool as this will cause scratches.
- Marker and ink marks can be removed with e.g. acetone or alcohol on a clean cloth.
- Disinfection can be done with alcohol if the surface is dried afterwards.

WOOD

Wood is a living material whose grain from the very beginning has a natural variation in pattern, color tone and luster. The wood is affected by, among other things, the season, heat and humidity. That wood is a living material means:

- Screws need to be re-tightened regularly, at least once a year.
- Solid table tops can naturally warp by up to 0.5%.
- Light from the sun and lighting can cause permanent color and light differences in the surface, so allow the entire wooden surface to be exposed to the same amount of light.

Out of concern for the environment, we paint a large part of our range with water-based surface treatments. This means:

- Spills of coffee and other liquids need to be wiped up immediately.
- For cleaning, hand washing detergent or pH-neutral detergents and lukewarm water are recommended. Wipe off with clean water and wipe dry. Do not use cleaning agents that are alkaline, aggressive, contain abrasives or solvents.
- For disinfection, non-alcohol-based agents are recommended, e.g. Virkon or DAX Alco Free. Alcohol-based agents must not be used.
