

ROLLING TABLE

JOHN 387

John 387 is a practical rolling table in a stylish design. It is a natural complement to the John functional armchair. The rolling table can be used as a dining table and work table or for storage. John 387 comes with articulated wheels that make the table flexible and user-friendly. The wheels can be locked so that the table is stable in place when needed.

The table is available as standard in clear lacquer, white or black, but can also be ordered in any colour as a special order. The top is available in birch laminate or Virrvarr in black.

John är ritad av Peter Andersson.

DIMENSIONS

Height	74 cm
Width	92 cm
Depth	45 cm

Any color available as an option on this product.

VIEWS

ADDED VALUE

- Flexible and user-friendly
- Lockable wheels
- Any color
- Tested for public use and meets the requirements for durability & safety, set forth in the following standard, EN 15372

ACCESSORIES

- Leg stand in birch
- Benstativ i valfri kulör

REUSE

- Solid wood (leg stand)

LAMINATE

Laminates are very durable surfaces that fit well in public environments.

- Daily cleaning with a dry cloth.
- For more difficult stains, non-abrasive cleaners can be used.
- Hardly ingrained stains or discolorations can usually be removed by carefully using a cleaning agent with a mild abrasive action.
- Rings and streaks that form on the surface are most easily removed with window cleaner.
- Do not use scouring pads or steel wool as this will cause scratches.
- Marker and ink marks can be removed with e.g. acetone or alcohol on a clean cloth.
- Disinfection can be done with alcohol if the surface is dried afterwards.

PLASTIC

For wiping, use a mild detergent without solvents or abrasives. Regular dish soap works well.

WOOD

Wood is a living material whose grain from the very beginning has a natural variation in pattern, color tone and luster. The wood is affected by, among other things, the season, heat and humidity. That wood is a living material means:

- Screws need to be re-tightened regularly, at least once a year.
- Solid table tops can naturally warp by up to 0.5%.
- Light from the sun and lighting can cause permanent color and light differences in the surface, so allow the entire wooden surface to be exposed to the same amount of light.

Out of concern for the environment, we paint a large part of our range with water-based surface treatments. This means:

- Spills of coffee and other liquids need to be wiped up immediately.
- For cleaning, hand washing detergent or pH-neutral detergents and lukewarm water are recommended. Wipe off with clean water and wipe dry. Do not use cleaning agents that are alkaline, aggressive, contain abrasives or solvents.
- For disinfection, non-alcohol-based agents are recommended, e.g. Virkon or DAX Alco Free. Alcohol-based agents must not be used.
