STOOL

SPUTNIK 101

Sputnik-serien består av sex pallar i tre olika höjder, med val mellan klädd eller oklädd sits.

Designen kännetecknas av en grafisk och skulptural form, inspirerad av en stiliserad rymdraket - ett uttryck som ger serien en stark identitet och lekfull karaktär och passar för miljöer som skolor, bibliotek, väntrum och kreativa arbetsytor,

Pallen tillverkas i massiv FSC®-certifierad björk. Den erbjuds som standard i klarlack, vit eller svart, men kan även beställas i valfri kulör som special.

Design: Björn Dahlström.

ADDED VALUE

- Design inspired by space rocket
- Bar stool with seat height 63cm
- Footrests in metal
- Testad för offentlig miljö för hållbarhet & säkerhet enligt följande standard, EN 16139

ACCESSORIES

- Stomme i klarlack, vit eller svart (standard)
- Stomme i valfri kulör (special)

REUSE

- Solid wood

METAL

- For regular cleaning, use a lightly moistened cloth with a mild detergent without solvents or abrasives.
- For heavily soiled surfaces, a cloth moistened with alcohol can be used.
- Disinfection can be done with alcohol if the surface is dried afterwards.

WOOD

Wood is a living material whose grain from the very beginning has a natural variation in pattern, color tone and luster. The wood is affected by, among other things, the season, heat and humidity. That wood is a living material means:

- Screws need to be re-tightened regularly, at least once a year.
- Solid table tops can naturally warp by up to 0.5%.
- Light from the sun and lighting can cause permanent color and light differences in the surface, so allow the entire wooden surface to be exposed to the same amount of light.

Out of concern for the environment, we paint a large part of our range with water-based surface treatments. This means:

- Spills of coffee and other liquids need to be wiped up immediately.
- For cleaning, hand washing detergent or pH-neutral detergents and lukewarm water are recommended. Wipe off with clean water and wipe dry. Do not use cleaning agents that are alkaline, aggressive, contain abrasives or solvents.
- For disinfection, non-alcohol-based agents are recommended, e.g. Virkon or DAX Alco Free. Alcohol-based agents must not be used.
