

TABLE

GUSTAV 243

Gustav 243 is a round table in solid birch. It has a functional design, with long durability and longevity. The table comes with stain in either black or white. Any NCS color can be ordered as an add-on.

Gustav 243 can be extended by up to 1 meter when using 2 insert boards, for increased flexibility.

The Gustav table series is available in six different models and is labeled with Möbelfakta.

DIMENSIONS

| | |
|--------|--------|
| Height | 73 cm |
| Width | 110 cm |
| Length | 110 cm |

Any NCS-color available as an option on this product.

ADDED VALUE

- Upp till 1 meter förlängning uppnås vid användning av 2 iläggsskivor
- En iläggsskiva på 50×110 cm ingår som standard

CERTIFICATIONS

ACCESSORIES

- Practical and durable laminate board, either in birch or in white laminate with an ABS edging.
- Can be stained in any color

VIEWS

RECYCLING

- Solid wood

LAMINATE

Laminates are very durable surfaces that fit well in public environments.

- Daily cleaning with a dry cloth.
- For more difficult stains, non-abrasive cleaners can be used.
- Hardly ingrained stains or discolorations can usually be removed by carefully using a cleaning agent with a mild abrasive action.
- Rings and streaks that form on the surface are most easily removed with window cleaner.
- Do not use scouring pads or steel wool as this will cause scratches.
- Marker and ink marks can be removed with e.g. acetone or alcohol on a clean cloth.
- Disinfection can be done with alcohol if the surface is dried afterwards.

WOOD

Wood is a living material whose grain from the very beginning has a natural variation in pattern, color tone and luster. The wood is affected by, among other things, the season, heat and humidity. That wood is a living material means:

- Screws need to be re-tightened regularly, at least once a year.
- Solid table tops can naturally warp by up to 0.5%.
- Light from the sun and lighting can cause permanent color and light differences in the surface, so allow the entire wooden surface to be exposed to the same amount of light.

Out of concern for the environment, we paint a large part of our range with water-based surface treatments. This means:

- Spills of coffee and other liquids need to be wiped up immediately.
- For cleaning, hand washing detergent or pH-neutral detergents and lukewarm water are recommended. Wipe off with clean water and wipe dry. Do not use cleaning agents that are alkaline, aggressive, contain abrasives or solvents.
- For disinfection, non-alcohol-based agents are recommended, e.g. Virkon or DAX Alco Free. Alcohol-based agents must not be used.
