

TWO-SEATER SOFA

THYRA 712

Thyra is a furniture family in Scandinavian design. It consists of an armchair and sofas in two sizes. The design is characterized by carefully selected wooden materials in birch or oak. It can be had with bare or covered gables, for a casual look.

Thyra 712 is a stylish sofa that comes with removable upholstery for easy washing. It has a gap between the seat and back, which facilitates cleaning.

Thyra is made of FSC-certified birch or oak and is marked with Möbelfakta.

Ritad av Linda Evensen.

ADDED VALUE

- Soft and round shapes
- Neat and easy to place
- Offers many tactile details
- Gap between seat and back for best hygiene
- Easy to get to under the sofa, which facilitates cleaning
- Removable fabric
- Any NCS color

ACCESSORIES

- Dressed gables
- Frame in birch or oak
- Frame in any NCS color
- Rubber fabric/hospital fabric

FABRIC

- Removable and washable fabrics are washed according to washing instructions. These are sewn with a shrink seam, wash before use for optimal fit.
- Vacuuming with a soft nozzle is often sufficient for cleaning.
- Stains should always be removed as quickly as possible. In most cases, wiping with a damp cloth is sufficient, for more difficult stains, a pH-neutral detergent or a foam detergent for professional use can be used.
- Always use white cloths and avoid wetting a woolen fabric to a greater extent, as this risks remaining stains.
- If necessary, a foam detergent can also be used for a more thorough cleaning if this is allowed in the fabric's specification.

WOOD

Wood is a living material whose grain from the very beginning has a natural variation in pattern, color tone and luster. The wood is affected by, among other things, the season, heat and humidity. That wood is a living material means:

- Screws need to be re-tightened regularly, at least once a year.
- Solid table tops can naturally warp by up to 0.5%.
- Light from the sun and lighting can cause permanent color and light differences in the surface, so allow the entire wooden surface to be exposed to the same amount of light.

Out of concern for the environment, we paint a large part of our range with water-based surface treatments. This means:

- Spills of coffee and other liquids need to be wiped up immediately.
- For cleaning, hand washing detergent or pH-neutral detergents and lukewarm water are recommended. Wipe off with clean water and wipe dry. Do not use cleaning agents that are alkaline, aggressive, contain abrasives or solvents.
- For disinfection, non-alcohol-based agents are recommended, e.g. Virkon or DAX Alco Free. Alcohol-based agents must not be used.
